Subject : Verizon Partner Solutions Industry Letter: Davenport PA EWSD Switch Retirement

PLEASE NOTE:

- All references to the Davenport PA EWSD switch are associated with CLLI code PHLAPADBDS0 and will not be repeated throughout this letter.
- All references to the Market PA C20 switch are associated with CLLI code PHLAPAMKPS2 and will not be repeated throughout this letter.

As set out in the Verizon Pennsylvania LLC Short Term Public Notice Under Rule 51.333(a), dated April 3, 2026, on or after May 25, 2026, the Davenport PA EWSD switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 215 currently residing in the Davenport PA EWSD switch (see list in Table B below) will be moved to the Market PA C20 switch (see details in Table A below).

The six (6) native NPA NXXs belonging to the Davenport PA EWSD switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Market PA C20 switch. This will occur on or after May 25, 2026.

Network Changes and Trunk Rearrangements:

The Market PA C20 switch will be the recipient office of traffic migrated from the Davenport PA EWSD switch. Traffic bound for the codes listed in Table B will be delivered via the Market 90T Tandem (PHLAPAMK90T).

After all traffic is migrated off the Davenport PA EWSD switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers, and paging carriers will need to secure new trunk groups built to the Market PA C20 switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Davenport PA EWSD switch will be required to reposition the codes to the Market PA C20 switch.

All ASRs for the Market PA C20 switch must be received no later than April 15, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved by May 25, 2026.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Davenport PA EWSD switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
