

Verizon Connect fleet management solutions

Streamline fleet and asset operations, optimize field service management, and simplify compliance and safety.

Enhance your business with end-to-end fleet management solutions.

Take control of your operations

Verizon Connect's fleet management solutions help businesses navigate the increasing complexities of fleet operations. By harnessing the power of accurate, meaningful data, our software delivers intuitive dashboards, comprehensive reports and proactive alerts, allowing you to make informed decisions that optimize performance and elevate customer satisfaction.

Manage your fleet from anywhere

The convenience of our mobile apps allows you to streamline communication with your workforce and gain real-time insights, helping you to optimize your fleet operations whether you're in the office or on the move.

“

It can help my customers. It helps me watch my drivers, helps cut down on accidents – that just saves everybody money and time.”

Bill Howe

A dynamic set of tools

Fleet and asset management

Review current vehicle and asset activity on one dashboard.

- View vehicle and asset location on a live map
- Receive reports for driver behaviors, like speeding or harsh braking
- Track fuel use, help reduce idling and monitor fuel card transactions
- Connect new vehicles with built-in OEM hardware
- Help improve vehicle maintenance with alerts for regular service
- Enhance vehicle or asset utilization and help reduce unnecessary rentals or purchases
- Ensure drivers arrive at location using commercial navigation
- Get 24/7 roadside assistance, commercial navigation and remote immobilization

Field service management

Simplify job management, scheduling and dispatching all while improving customer communication.

- Schedule and sequence jobs according to technician availability and customer requirements
- Improve technician communication and customer satisfaction
- Provide customers with appointment reminders, confirmations and ETAs

Compliance solutions

Meet federal mandates and help make compliance easier for drivers.

- Maintain HOS logs to comply with the ELD mandate and help avoid violations
- Complete paperless DVIRs with a mobile app for drivers
- Save time with duty and driver statuses that update automatically

Integrated Video dashcams

Enhance fleet safety with extended view cameras, and integrated road- and driving-facing cameras.

- Give drivers a near-360-degree view around the vehicle to help prevent accidents
- Capture video footage of harsh driving events
- Coach drivers on how to best avoid distractions and improve safety with video footage
- Help reduce risky behaviors and automatically alert drivers when they are distracted, drowsy, tailgating or nearing a pedestrian
- Mitigate liability in the event of a false accident claim

Enterprise solutions for large organizations

We offer comprehensive solutions for fleets with more complex needs.

- Employ route sequencing and optimization
- Capture job data for forecasting and work planning
- Dispatch jobs to technicians in the field and allow them to report back on job status, roadside assistance, commercial navigation and immobilization
- Manage a wide range of OEMs on one screen
- Add open APIs to connect your fleet system to other tech you already use
- Implement a driver safety program with coaching tools

A time-tested platform

As one of the largest commercial fleet management providers in the world, Verizon Connect provides a product and customer experience that you won't find anywhere else.
